

CS 346: Daily Standup

Team #: 204

Date: March 8th, 2023

Questions

Enter comments below. If a team member is absent, fill in their name, and put a line through the answer section.

Name	What have you completed since last meeting?	What are you going to complete today?	What obstacles are in your way?
Avesta	Finished setting up the ability to get who is in a Whiteboard room	Begin working on multiplayer drawing	None
Edward	Ability to update usernames from the menubar.	Implement code review changes, create unit tests. Pair program with Avesta on multiplayer drawing.	Minor clarification needed on code review.
York	Finished top bar	Code reviews for Edward and Mikail	None
Mikail	Completed implementation of 'delete tool' for click and drag	Implementation of Command pattern to use key and pointer event shortcuts	None

Outstanding

Nothing outstanding.

Decisions

Multiplayer drawing will be unoptimized. We will reiterate and improve on it in the future sprints. Edward may have to hold off on his changes depending on our timeline as we do not want last second merges into our branches. They will not improve the product or debugging what is left so it is okay to defer it. Edward will also pair program with Avesta on multiplayer drawing.
