What worked well this sprint? Pair Programming, Discord meetings
What didn't work and what will you change as a team?

Technical, design

The team members are very engaged, and well synced. They met all the Requirements were satisfied & the team made great progress.

Instructions

The primary purpose of the sprint demo is to provide feedback! Remember that you only have about 15 mins per team.

Use the demo time to review what the team accomplished – reviewing the issues list with them is a great place to start. View each completed feature and provide helpful feedback.

Once the demos are completed, revisit and grade according to the guidelines below.

Please add comments and grade on this sheet. Once complete, scan into a PDF and upload to the SharePoint site.

Grading

1. Sprint kickoff (5)

Review the team's meeting minutes in GitLab.

- (2) Issues are created to address requirements for this sprint - see web site. ✓
- (2) Sprint objectives are identified and discussed. ✓
- (1) Issues are assigned evenly across the team. ✓
