Questions

Enter comments below. If a team member is absent, fill in their name, and put a line through the answer section.

Name	What have you completed since last meeting?	What are you going to complete today?	What obstacles are in your way?
Avesta	<ul style="list-style-type: none">- Database setup- Completed service-side work for authentication and started socket setup	<ul style="list-style-type: none">- Finish socket demo and merge	<ul style="list-style-type: none">- None
Edward	<ul style="list-style-type: none">- Added window size persistence on client	<ul style="list-style-type: none">- Continue working on menu bar on client- Push meeting and release notes to repo	<ul style="list-style-type: none">- Having some trouble with menu bar actions. To tackle next sprint
Mikail	<ul style="list-style-type: none">- Working on changing HTTP to HTTPS on service and client	<ul style="list-style-type: none">- Complete HTTPS setup, work on unit tests for client	<ul style="list-style-type: none">- None
York	<ul style="list-style-type: none">- Redo multi-project setup for client and service- Completed client-side work for authentication- Completed basic drawing capabilities on client	<ul style="list-style-type: none">- Polish drawing and merge	<ul style="list-style-type: none">- Need someone to take over unit testing for client classes, Mikail to take over

Outstanding

Do we need help with anything?

- Need unit tests for client classes created for authentication

Decisions

Is there anything else we should capture from this meeting?

- Merge code into sprint-1 branch before Friday morning, Avesta to merge sprint-1 into main before demo
